**INDIGO ACHIEVES
FIRST CLOSE FOR ITS NEW FUND
INDIGO CAPITAL II**

Indigo Capital SAS is pleased to announce the first *Close* of its new fund Indigo Capital II at €170 million. The target size of the Fund is €350 million with the Final *Close* anticipated in September 2019.

Investors in the Fund include institutional investors, pension funds, insurance companies and governing bodies, predominantly French and European, seeking to diversify their private equity investments - as well as *family offices* and high-net-worth individuals who are showing an increasing interest in private bonds.

For this first *Close*, Indigo Capital II was backed by its existing investors along with additional support from new, predominantly French investors. The previous fund, closed in 2014, is now fully invested in 19 French and European companies, with notably two transactions completed recently in Italy (Sidac and Bassini).

Indigo Capital II will pursue the strategy of its predecessor funds by providing their clients – private equity funds, private investors, executives and corporates with flexible and innovative bond financing solutions to accompany their growth in France and Europe with investments ranging between €5-40 million. Italy will remain a key market for Indigo Capital.

Indigo Capital SAS is an independent, well-established player in the alternative finance market specialising in the financing of small and medium-sized French and European businesses worth between €20-300 million. Indigo Capital has been operating on this segment since 2000 and has supported close to 50 companies with their growth or acquisition projects.

Based in Paris, the team of 8 investment professionals is led by Managing Partners, Monique Deloire and Cyril de Galea. Indigo Capital SAS's portfolio currently comprises more than €500 million assets under management.

Indigo Capital SAS is a signatory of the United Nation's Charter of Principles for Responsible Investment (UN PRI), and is committed to implementing the best ESG practices concerning both the management of the firm's assets and holdings.
