

## **PRESS RELEASE**

### **NPL MARKETS SUCCESSFULLY CLOSES LATEST FUND RAISE**

**LONDON, 8 FEBRUARY 2021** - NPL Markets (the 'Company') has successfully completed its latest round of fund raising to accelerate its growth and capitalise on the significant opportunities in the fast growing non-performing and distressed loan market.

Working with its existing client network, NPL Markets has identified new growth opportunities within the distressed loan market. This successful capital raise will allow the Company to expedite its expansion into these areas. The funds raised will enable NPL Markets to hire additional talent, invest further in its data and technology stack to facilitate the roll-out of additional products and expand into new services, and extend its geographical footprint across Europe and the Americas.

The funding round not only provides further growth capital for NPL Markets, but also brings in strategic institutional and private investors to the shareholder register who will contribute to the further development of the business.

Commenting on the funding, Gianluca Savelli, CEO at NPL Markets, said: "Our vision is to capture the growing opportunity in the distressed loan market and build an environment where banks, investors, servicers and advisors can be better connected and benefit from smart technology and data. This latest injection of capital demonstrates confidence in our business model and will help us to seize opportunities in new markets".

#### **About NPL Markets**

NPL Markets is a FinTech company that enables smart decisions through innovative technology, advanced data analytics and provides access to a comprehensive trading ecosystem for non-performing loans and illiquid assets. The platform provides a comprehensive solution via its four pillars of portfolio data preparation, valuation analytics, marketplace and reporting.
