

Theia acquires 22 MWp under construction ground mounted Solar PV plants in Piedmont

Milan, April 2022

Theia Investments has successfully completed the acquisition of two vehicle companies, owning 4 plants currently under completion, for a total power of **22 MWp**, from NatPower, a leading company in the field of Renewable Energy and sustainable infrastructure.

L&B acted as Theia's legal advisor, with a team led by partners Pina Lombardi and Davide Peloso, supported by counsel Alessandro Salzano and associates Giulia Bianchi and Eleonora Frizziero.

Gattai, Minoli, Partners Studio Legale advised NatPower with a team coordinated by counsel Damiano Battaglia and composed by associates Beatrice Gattoni and Tomaso Maria Morino.

Kiwa Moroni assisted Theia, acting as technical advisor, with a multidisciplinary team led by the Operations Director Loris Morsucci and managed by the Technical Managers Sara Basile for the technical and administrative topics, Roberto Giovagnetti for the grid connection topics and project contracts, Mauro Marchi for the plants performance topics.

Prothea has acted as exclusive financial advisor to the Seller, with a team led by the Managing Director David Armanini and the Senior Associate Pietro Torrente

Notary Carlo Munafò oversaw the stipulation of the notarial deeds relating to the operation as well as the preliminary and subsequent formalities thereof.

Theia Investments Team, commented: *"This deal represents a real staple for Theia, being the first acquisition of unsubsidized plants in our portfolio. We would like to thank the whole advisory team for their outstanding support in this complex transaction"*.

THEIA: backed by institutional investors, was established with the goal of acquiring and operating European renewable energy assets, with a particular focus on assets where Theia can add value through operational and financial optimization, leveraging the team's deep experience in the sector.
